

Claze Lislain Cepe

Web Developer

clazelislaincepe@gmail.com

+63 961 074 0543

Los Baños, Laguna

Objective

Aspiring developer who is seeking for a challenging and growth-oriented position in web development where I can leverage my skills and my willingness to learn, while applying the knowledge gained during my time in the university to contribute effectively to the team's success.

Projects

Project Menche - Freelance / Intern Mobile App Development

March 2022 - September 2022

- Refactored legacy code within the mobile app. Integrated latest updates and improving functionality and performance
- Redesigned the UI / UX of the mobile app for a better user-friendly experience

To-Do's - Task Taking Personal Web App Project in Django

August 2023

- Created templates using HTML and Bootstrap for a typical todo list application
- Used Django's built in ORM to create database with user authentication

B.R.A.I.N - Study Group / Collaboration Django Web Application

September 2023

- Used Django to create an application that serves as a general chat room for studying
- Implemented the user login function using Django's built in authentication system
- Created views, models, and routing for the user, topic, and rooms

Personal Portfolio - React Portfolio Website

July 2023

- Used ThreeJS, Tailwind, and Framer Motion for a responsive portfolio
